The Department of Pathology of Treviso, organizes a two-day course focused upon the diagnostic pathology and molecular genetics of soft tissue tumors. The course will be co-directed by Prof. Christopher D. M Fletcher, Professor of Pathology, Harvard Medical School, Boston, MA, USA.

The course is directed to pathologists and will include lectures and slide seminars. All the participants are kindly invited to submit one case for the slide seminar. The first 70 registrants will receive the slide box at the end of the course.

For each case, submission of a short clinical history, and a paraffin block form which at least 70 sections can be prepared, is required. The deadline for submission of cases is April 1st 2012.

All registrants will have access to the virtual slides of the cases included in the slide seminar. The number of participants will be limited and therefore early application is advised.
